ABOUT ME

I'm a software developer who genuinely loves building things. I've been messing around with computers since I was a little kid. I won't claim to know everything, but I keep learning every day and I don't back down from challenges.

SKILLS

- JavaScript, TypeScript, Lua, Java, C#
- HTML5, CSS3, Tailwind, Bootstrap
- React, Node.js, Express, Redis
- PostgreSQL, MySQL, MongoDB, Firestore
- REST APIs, CRUD, Web security
- Responsive Design, UX/UI Principles
- Cypress, Cucumber
- Git, Agile, CI/CD, Docker, Kubernetes
- Cloud computing, VPS (IaaS)
- IoT, Raspberry Pi, GPIO programming

EDUCATION

- **FULL STACK DEVELOPMENT**
Higher vocational education
2023 - 2025
- **SENIOR HIGH SCHOOL-TECHNOLOGY PROGRAM**
Thorén Innovation School
2018 - 2021
Research project: Built a security camera

CERTIFICATES

- **DOCKER FOR DEVELOPERS**
Educative
Present
- **CLOUD COMPUTING FUNDAMENTALS**
Educative
Oct 2025
- **UGL - UNDERSTANDING GROUP AND LEADER**
Aktivt Ledarskap
Feb 2025

RELEVANT EXPERIENCE

- **PORTFOLIO AND GAMEHUB**
Personal project | Oct 2025 - Present
 - **WebDev** • **DevOps** • **A lot of technologies**A place for me to showcase my projects, as well as a platform where you can play games both alone and with others.
- **GAME DEVELOPMENT PROJECT**
Personal project | Aug 2025 - Dec 2025
 - **Lua** • **UI/UX** • **Scrum** • **Play testing**An introduction to game development. Collaborated with another developer to design and build a fun and interactive experience in Roblox.
- **FULL STACK DEVELOPER, INTERN & PART-TIME Aktivt Ledarskap** | May 2024 - Aug 2025
 - **JavaScript** • **TypeScript** • **Node.js** • **React** • **JWT**
 - **PostgreSQL** • **Sequelize** • **Agile** • **Cloud-based**Led the transformation of a proof-of-concept into a secure, user-friendly digital platform for leadership courses, developing full-stack features such as content modules, interactive tests, and role-based authentication. Implemented security measures and best practices aligned with the OWASP Top 10 to ensure application resilience. Collaborated with users and stakeholders, iterating based on feedback to deliver a customized application.
- **FINAL REPORT & PROJECT Teknikhögskolan** | May 2025
 - **JavaScript** • **TypeScript** • **Node.js** • **React**
 - **MongoDB** • **JWT** • **Agile** • **Git**Built a full-stack Dungeons & Dragons character management POC, featuring secure JWT authentication and full CRUD functionality. Authored a detailed project report documenting design, implementation, and outcomes.
- **IT TECHNICIAN & FRONTEND DEVELOPER, INTERN Stena Recycling AB** | Feb 2022 - May 2022
 - **Hardware** • **Diagnostics** • **HTML** • **CSS**Tested and repaired computers and mobile devices. During a segment of my internship I also developed a web UI for an internal logistics/communications system.
